FINEST WOOLENS

Can Satisfy Our Demand for Quality

ONLY woolens of the finest grade—the pick of Scotch, English, French, Belgian and Irish looms—are good enough for Marshall Field & Company Suits of the finer sort.

They're personally selected by our own representative, who goes right from our Suit Section here in The Store for Men, straight to the loom districts of continental countries and the British Isles, carrying with him an exact knowledge of what our customers ought to have.

That's a practice we've followed for years. It's part of the personalized service of this Store. And because of our unequalled resources, the high character and large volume of our business, we're able to obtain these rich woolens in patterns confined exclusively to us.

U. S. STRONG BOX THROWN OPEN TO RELIEF OF JAPAN

MESSAGES FROM JAPAN TELL OF SAFETY OF MORE CHICAGOANS

CAMERA OUSTS COURT TYPISTS; CUTS EXPENSES

Substitution of photography for typewriting in the copying of wills, decrees and other court instruments, yesterday enabled John P. Devine, clerk of the Probate court, to discharge twelve stenographers.

At a cost of about \$500 a month, it is estimated that the photographic process will save the stenographic typists \$1,200 a month. This is the only Chicagoan known to have been killed. This cablegram also told of the safety of Mr. Reich and family, formerly of 149 North Monroe Avenue, and of H. A. Atherton and Stanley Bracken, who are in Kobe.

The Canadian Pacific railroad headquarters here received word that George E. Costello, general agent, and Edward Hooper, passenger agent, are aboard a steamer at Yokohama.

Miss Agnes M. McCoy of 1425 Prairie avenue, formerly of 149 North Monroe Avenue, was confident the Rev. George Fuller and family are safe. They are passengers on the Empress of Canada, at one time reported disabled.

MIKE WON'T TELL BUT HE WANTS OUT.

Somebody is not happy to contemplate Mike Boyle's stretch of six months in the Lake county jail. Possibly it's Mike himself, although he said he did not mind doing a winter turn rather than tell what he knows of Small jury fixing. Possibly other people do not like it. However much they may rely on him not to tell, they may sleep more easily if he's out of jail and not in.

The first effort to spring Mike out of jail was in the petition for a writ of habeas corpus heard by Judge Lynch, who dismissed it. Mike's attorneys hunted relief elsewhere and took the petition to Judge David, who refused it. He has now taken first steps to seek relief in Lake county.

The extraordinary activities to get the labor leader out of durance do much service to the public. They keep alive facts which should be remembered.

Mike Small, as state treasurer, made a loan of \$10,000,000 to Chicago packers, who paid as high as 8 per cent interest. The state got 2 per cent. Small was indicted for embezzlement, avoided arrest, but finally was brought to trial after many delays, which did not reveal his eagerness to meet the accusation.

He was found not guilty by a jury some of whose members, along with county officials and court hangers on, were immediately rewarded with state jobs.

An investigation of jury bribing was begun, a reward member of the jury was indicted, charged with taking \$50 from a go-between who confessed. There was another verdict of acquittal.

Boyle and Ben Newmark refused to answer questions before the grand jury. Both were sentenced for contempt. Both jumped their bail and fled. Boyle was caught and put in jail.

He won't tell. He takes punishment rather than tell. All the acquittals do not quiet the fact that he prefers jail to answering questions when he is asked about the Small jury. That is the loudest in the state, and the amazing efforts to get him out of jail are almost as noisy in significance.

FORD'S WAY TO A POWER MONOPOLY.

Henry Ford announces that he has "taken under advisement" a federal request to modify his offer for the purchase and lease of the government's hydro-electric power and nitrate plants at Muscle Shoals. In that connection it is interesting to recall that Mr. Ford has already become something of a hydro-electric magnate through water power ownerships in various parts of the country outside of Alabama, and that these power plants have come under his control in complete accord with the federal water power act.

Very few persons, it is safe to say, know of these expansions of the Ford interests. The reason is simple. The leases and plants have been obtained through ordinary conventional business methods and to cast undeserved odium upon France is the pretense that because of the compulsory surrender of which cows to France there is a milk famine in Germany which is causing sickness, suffering and death to countless babies and young children. This pretense is contradicted by the highest of German authorities. Official German census figures given in *Wirtschaft und Statistik* tell us that before the war, on Dec. 1, 1913, there were in Germany 10,415,000 milk cows. On Dec. 1, 1920, this number had been reduced to 7,790,000. But by Dec. 1, 1921, the number had risen to 9,031,000, or about as many as before the war in proportion to the diminished population and area of Germany; and as it has been steadily increasing in the two years since, there is every reason to believe that it is now larger than ever before.

Yet it is undeniable that in Berlin and other cities there is a painful scarcity of all dairy products. We are told by high German authority that the 37,000,000 city dwellers of Germany get and consume only one-eighth of the dairy products, while the 22,000,000 of rural population retain for their own consumption seven-eighths. Why is there so great a contrast and so great a disproportion in the use of one of the prime necessities of life?

The reason is perfectly obvious. It is because of the depreciation of the mark. Farmers prefer to consume their own dairy products or feed them to calves and pigs rather than to send them to the cities and there sell them for waste paper.

profits of \$124,100,000 last year, and a cash reserve of \$44,129,156, according to his own balance sheet, do something with Muscle Shoals power on the same terms that the government offers to encourage others?

WHO KILLED COCK ROBIN?

Lord Birkenhead, former lord chancellor of Great Britain, said in a Montreal speech that if at the Paris peace conference it had been known that the United States did not intend to accept the treaty, join up, and continue in cooperation with its associate nations things would have been ordered differently.

He said that a great many of the ills of Europe could have been avoided, such as the disaster to the Greeks in Asia Minor, the occupation of the Ruhr, and other man made troubles. "Either the school of idealism which preceded the last election in the United States is right or wrong. I am inclined to believe it is right."

The former high law lord seems not to have read the American constitution and to be unfamiliar with the treaty making processes of the United States and to have overlooked some recent history. Otherwise he could not have been misled at Paris, nor could any one else. If he had remembered the Hay-Pauncefot treaty he would have realized that a treaty negotiated and signed by an American statesman is merely a proposal put up to the United States senate, and that the consent of the senate is not on a rubber stamp in the hands of the administration, but is obtained after independent deliberation.

The school of idealism was not defeated in the American election which rejected the treaty. It was defeated in Paris by the conference which framed the treaty. In spite of the provincialism attributed to the American people they were shrewd enough to know that they were being offered a scheme of imperialistic politics and were to be dragged into it. Idealism did not die in the United States in 1920. It died in Paris when Clemenceau, Lloyd George, and Orlando had their way with Mr. Wilson.

RESPONSIBILITY.

The council of ambassadors, it seems, is to set up machinery for determining responsibility for the assassination of the Italian boundary commissioners, and the Greek government promises to enforce the penalty imposed.

But who will determine and impose punishment for the slaying of the children at Corfu?

THE NAVY IN THE AIR.

There are dreamers in this country, and perhaps abroad, who believe that inventive genius is so developing the machinery of war that the next international conflict will be waged chiefly between a few engineers pushing buttons to destroy fleets, cities, and armies. Their chief reliance to this end, that war shall become too destructive to survive, has been in the development of aircraft.

He was found not guilty by a jury some of whose members, along with county officials and court hangers on, were immediately rewarded with state jobs.

An investigation of jury bribing was begun, a reward member of the jury was indicted, charged with taking \$50 from a go-between who confessed. There was another verdict of acquittal.

Boyle and Ben Newmark refused to answer questions before the grand jury. Both were sentenced for contempt. Both jumped their bail and fled. Boyle was caught and put in jail.

He won't tell. He takes punishment rather than tell. All the acquittals do not quiet the fact that he prefers jail to answering questions when he is asked about the Small jury. That is the loudest in the state, and the amazing efforts to get him out of jail are almost as noisy in significance.

FORD'S WAY TO A POWER MONOPOLY.

Henry Ford announces that he has "taken under advisement" a federal request to modify his offer for the purchase and lease of the government's hydro-electric power and nitrate plants at Muscle Shoals. In that connection it is interesting to recall that Mr. Ford has already become something of a hydro-electric magnate through water power ownerships in various parts of the country outside of Alabama, and that these power plants have come under his control in complete accord with the federal water power act.

Very few persons, it is safe to say, know of these expansions of the Ford interests. The reason is simple. The leases and plants have been obtained through ordinary conventional business methods and to cast undeserved odium upon France is the pretense that because of the compulsory surrender of which cows to France there is a milk famine in Germany which is causing sickness, suffering and death to countless babies and young children. This pretense is contradicted by the highest of German authorities. Official German census figures given in *Wirtschaft und Statistik* tell us that before the war, on Dec. 1, 1913, there were in Germany 10,415,000 milk cows. On Dec. 1, 1920, this number had been reduced to 7,790,000. Why is there so great a contrast and so great a disproportion in the use of one of the prime necessities of life?

The reason is perfectly obvious. It is because of the depreciation of the mark. Farmers prefer to consume their own dairy products or feed them to calves and pigs rather than to send them to the cities and there sell them for waste paper.

Editorial of the Day

WHY GERMANS LACK MILK.

(Boston Transcript).

One of the shallowest of the many falsehoods which German propagandists are putting forth to excuse their government for violating its treaty obligations and to cast undeserved odium upon France is the pretense that because of the compulsory surrender of which cows to France there is a milk famine in Germany which is causing sickness, suffering and death to countless babies and young children. This pretense is contradicted by the highest of German authorities. Official German census figures given in *Wirtschaft und Statistik* tell us that before the war, on Dec. 1, 1913, there were in Germany 10,415,000 milk cows. On Dec. 1, 1920, this number had been reduced to 7,790,000. But by Dec. 1, 1921, the number had risen to 9,031,000, or about as many as before the war in proportion to the diminished population and area of Germany; and as it has been steadily increasing in the two years since, there is every reason to believe that it is now larger than ever before.

Yet it is undeniable that in Berlin and other cities there is a painful scarcity of all dairy products. We are told by high German authority that the 37,000,000 city dwellers of Germany get and consume only one-eighth of the dairy products, while the 22,000,000 of rural population retain for their own consumption seven-eighths. Why is there so great a contrast and so great a disproportion in the use of one of the prime necessities of life?

The reason is perfectly obvious. It is because of the depreciation of the mark. Farmers prefer to consume their own dairy products or feed them to calves and pigs rather than to send them to the cities and there sell them for waste paper.

SIMPLIFYING OUR LAWS.
(Rock Island Argus)

Some of our leading jurists and lawyers are meeting in Minneapolis for the purpose of recommending a simplifying and lessening of the burdensome legal machinery of the states and nation. There are so many laws now that even the average attorney can't keep track of them. It's time we were reverting to the laws of common sense and discarding technicalities. Too many of our laws are merely traps that can be sprung by the legal trickster and technician in the interest of his own pocketbook. The public will join with the lawyers in hoping that the Minneapolis conference will bear the desired fruit.

THE BLAMEY.
(Rock Island Argus)

The reason for the dispute between Mr. Ford and the war department as to the inclusion of the Gorham steam plant in the properties sought by the manufacturer sheds additional light upon the consistency of his claims and promises. The Muscle Shoals district and the country at large have been led to believe, through Mr. Ford's propaganda, that his chief interest is in the development of Tennessee river power. As long as he continues to stick on the inclusion of a steam power plant in the properties he would take over, it seems clear that water power development is not by any means his sole or chief purpose. That is further indicated by the fact that while Ford has been struggling for years to obtain the Muscle Shoals properties on his own terms, other capital is actually developing hydro-electric power at the head waters of the same river in amount which will rival Muscle Shoals and according to law.

If comparatively unknown business men can do that, why cannot the famous Mr. Ford, with

A LINE O' TYPE OR TWO.

How to the Line, let the
quips fall where they may.

LOVE-MOTH

Love me! . . . Time goes, I go, too:
Here's this little mouth of mine,
Moulded in a rose for you—
Rose of blood . . . of Columbine.

Suns set! . . . Yesterday grow dim;
Blossoms wither on the vine:
Here's my hand, to meet your whim—
Hand of snow . . . of Columbine.

Leaps fare! . . . There's a white moth—dead:
Life grows heavy—bliss, like wine:
I've forgotten what I said—
What I promised . . . Columbine.

Wrinkle! . . . In this mirror—see—
Wrinkles on this cheek of mine:
There's a chilliness in me . . .
Hold me closer . . . Columbine.

Night grows dull! . . . Lights flicker low—
Beacons, in a long, pale line . . .
Kiss me softly, are I go . . .
Then forget me . . . Columbine.

—Dorothy Dow.

MAYOR DEVER yesterday told the managers of the theaters and of the plays therein that he looked to them for \$20,000 for Japan not later than Monday noon; and, although their game is a gamble, they had the sum in sight by nightfall. The Mayor said nothing about a quota from the ticket offices, who confine their trade to the managers

GOITRE AND IODINE.

THE great goitre sections of the United States are the northern part of the mountain range section of the far west and the upper Missouri valley. The Atlantic and the Pacific states are separated by the iodine in the sky by reason of sea sprays and the iodine in the sea food. The people of the southern Mississippi valley are protected by the iodine laid down by the sea which overlay that section a few centuries ago. In the Rocky mountain region, roughly so termed, and in the loosely termed the Red River region, it may be desirable to supply iodine to the people internally, as they are now furnished water in the cities.

By Dr. W. A. Evans.

bether, I should like to know if I should stay out of the ocean on that account.

Is it something that can be cured?

—REPLIES.

I don't if it is strong enough to warrant you giving up ocean bathing. At the same time, you have one of those endemic afflictions of the nerves and blood vessels which are so disturbing and which sometimes cause serious trouble.

Well, you deserve of this group is

Renaud's disease.

Treatment of the stages by light therapy

might be worth while.

WATERIS IS BOUND SHOULDERED.

Miss L. L. writes:

1. What can I do for my shoulders?

I am getting round shouldered. I am 27 years old and I work as a waitress.

2. Do you think waiting on the table is a cause?

I have to carry trays that are quite heavy. I am 5 ft. 4 in. tall and weigh 118 pounds.

3. Is this the correct weight and height for a 27 year old girl?

4. What is the correct weight and height for a 27 year old girl?

BERLIN NAMES MONEY CZAR TO AVERT DISASTER

Starts Gold Bank, Pushes
Solution in Ruhr.

BULLETIN.
BY THOMAS RYAN.
[Chicago Tribune Foreign News Service.]
DUSSELDORF, Sept. 7.—An advertisement in a local newspaper ordered by the French military headquarters announces inter-allied peace talks at Dortmund on Sunday and invites Germans to attend. The invitation is regarded as a sign of the times.

BY GEORGE SELDES.
[Chicago Tribune Foreign News Service.]
BERLIN, Sept. 7.—Important his-
tory making events crowded each
other in Berlin today. While the
downward rush of the raid to ruin
continued financially and while alarm-
ing reports of a Bavarian conspiracy
to disrupt the capital and of a Saxon
conspiracy to declare a proletarian
republic continued to be heard, the
German took dictatorial steps and
the desperate last minute efforts to
save the nation from falling over the
edge, where it now is hanging.
One of the most important events

is confirmed that negotiations be-
tween Germany and France have now
reached a stage where German diplo-
mats officially feel that a settle-
ment of the entire Franco-German con-
flict can be reached within eight days.

A money dictator was named for

Germany by Chancellor Stresemann,

and confirmation of hidden money will
be sent tomorrow night.

The cabinet announced that the gov-
ernment will begin the operation of a
gold bank immediately for issuing new
money based on raw and gold.

Diplomatic relations were restored

with Belgium, when Ambassador

of Belgium, who was withdrawn at the
time of the Ruhr occupation, was sent

back.

Germany's new offer of peace to

France, according to diplomatic
sources, will be made through oral
negotiations with French-Belgian min-
isters here.

It was generally agreed that the
two countries, farms and
industry in excess of our own.

Then this statement is
made: America cannot pro-
duce the world in chaos and

suppose that the western

were entirely cut off from

with the rest of the world

and the rest of the world

4 mines counted. Would

be anything more or less

adjustment of the working

industry to a point

of production would approximately

suffice, and this without

any cost to us.

BARE NUMEROUS ERRORS MADE BY TAX COMMISSION

Books Don't Agree with Mayor's Board.

BY OSCAR HEWITT.
Mayor Dever's tax commission will have an opportunity to get into action next Monday against at least one concern which it claims has too small a personal property valuation. This is the American Bond and Mortgage company, 127 North Dearborn street. The board of review has summoned it to appear and tell why it should not pay more taxes. By coincidence its name appears on the commission's list. Concerning it the mayor's complaint says:

"Valuation of \$300 too low. Concern is rated in millions. Has large suite requiring private telephone exchange. His investments in bonds running into millions."

"But the Marquette Cadillac, Packard, Pierce Arrow, two Dodge and two Ford cars. Has no capital stock assessment. Valuation appears not enough to cover fraction of stationery it has. This is not a bank."

Valuation Set at \$2,500.

Checking back in the records, it was found that the commission had made a mistake in stating the valuation is \$300. The right figure is \$2,500. The board of review last year placed a valuation of \$50,000 against this company. "This error by the commission made it pertinent to check up other complaints of the commission."

One of these complaints says the assessors have listed the personal property of Samuel M. Fellon, 11 East Division street, at \$400. The record shows \$450. Edward J. Doyle, 1636 Sherwin street, is given \$500 valuation by the commission. Records show \$400.

The commission says an assessment against L. T. Walker, 26 East Goethe street, "has been omitted from the list." It is listed at \$749.

Valuation of the estate of E. A. Cummings the commission says: "No valuation for purposes of assessment on printed lists nor on books of assessors as far as we can discover." This estate is on the books for \$7,742.

Error on Tausig Estate.

The commission says "no assessment or valuation is on the lists" for the estate of William Tausig. The records show \$15,000. Valuation of \$2,000 is too low," the commission says regarding the Chauncey W. Martin estate. The valuation is \$20,000.

The commission complains of a \$5,000 valuation on the estate of Fred A. Ingalls. Records show that \$50,000 is the valuation. "Not on the lists" the commission relative to the estate of Walter S. Haines. The books show \$50,000.

Still another complaint says the "valuation of \$1,000 is too low" for personal property of Joseph E. Otis, 1415 Astor street. He is in the books for \$10,000.

One mistake was found in the opposite direction relative to J. M. Guleck, 106 East Division street. The commission credits him with a valuation of \$500, but records show only \$50.

No mention would have been made of two or three mistakes in 100 tax assessments which the commission complained of because the liability for error in tax matters by unskilled persons is large.

Cowles Complains of Valuation.

Alfred Cowles, 1180 Lake Shore drive, complained to the board of review yesterday of an assessment of \$37,500. He claimed it is excessive. Assistant Corporation Counsel Hornstein, representing the commission, said that on Monday he will challenge Mr. Cowles' claim for a cut.

The board placed a valuation of \$22,600 on personal property of Edgar A. Bancroft, 134 South La Salle street. The board summoned 260 more to appear before it and show cause why their property assessments should not be increased.

**FISHER DENIES
SAYING HARDING
FAVORED LEAGUE**

Columbus, O., Sept. 7.—Prof. Irving Fisher, Yale economist and lecturer for the League of Nations, denied yesterday that in a statement he had made earlier denied that in course of a speech at East Liverpool last Sunday he had said that President Harding favored the league of nations, but did not dare to make his views public. Prof. Fisher declared he had been misquoted by some newspaper men.

Because of the statement regarding the league of nations, Prof. Fisher, which had arranged for Prof. Fisher to speak at Salem, O., next Sunday yesterday canceled his engagement. Tonight the professor said he had received no word from the Salem committee. He said he would communicate with the committee tomorrow.

The East Liverpool speech which Prof. Fisher says was misquoted in the newspapers was sent out in advance to newspapers through the Associated Press and apparently the text was furnished by Prof. Fisher himself.

**PIONEER GOLFER
OF FLORIDA DIES
MAKING A DRIVE**

Sarasota, Fla., Sept. 7.—[Special.] Col. J. Hamilton Gillespie, who introduced golf into Florida, constructing the first links at Sarasota, which he founded in 1885, dropped dead with a driver in his hand on the links this morning.

Col. Gillespie was the son of Sir John Gillespie of Dumfriesshire, Scotland, head of a Scotch syndicate which owned 100,000 acres of land in South Florida. Capt. Gillespie, a young lawyer in Edinburgh, was sent over as resident manager and so founded the city which is now the winter home of scores of wealthy northerners, including many from Chicago.

Col. Gillespie never left his daily rounds excepting during the world war, when he returned to Scotland and was reinstated by his old regiment, the King's Scotch Bodyguards.

Col. Gillespie also laid out the golf courses for Tampa, Jacksonville, Winter Haven, Orlando, and three or four other Florida resort towns.

Wins Perjury Case

FOSTER TO FIND FOES AT MEETING OF FARMER-LABOR

Radical Chief to Be Storm Center at Decatur.

BY FRANK BUTZOW.

Decatur, Ill., Sept. 7.—[Special.] William Z. Foster, radical leader, will be the storm center of the Illinois Farmer-Labor convention which opens tomorrow.

The first delegation to arrive is strongly anti-Foster and will fight his efforts to gain control of the annual convention which precedes the annual meeting of the Illinois Federation of Labor.

This same delegation is fighting John H. Walker, president of the state federation and Farmer-Labor candidate for governor in 1928. The delegation here says Walker read himself out of the party when he delivered himself to Gov. Len Small at the pay rollers' convention in Kankakee Aug. 15.

Shipstead Speaks Tomorrow.

Farmer-Labor leaders intend to write a platform Sunday, following an address by Henrik Shipstead, Farmer-Labor senator from Minnesota. Magnus Johnson, elected recently as Shipstead's colleague, sent his respects. He said he had political chores to do in Illinois as well as his regular job of helping Mrs. Johnson and the kids milk the cows.

The Farmer-Labor party will not endorse Gov. Small for a second term, according to leaders here. Plans will be made here, it is said, for a nominating convention to be held in February, when the Farmer-Labor slate for the state election will be made.

Senator Frank B. Willis, who made a speech at the Chicago convention, said flatly that he favored keeping Fred Coolidge in the White House.

Fred Stark, a director of the war finance corporation and an intimate friend and political adviser of Mr. Harding, said that if Mr. Coolidge becomes a candidate next year "it will be up to him to make his own way."

He added that to nominate the President as a candidate was not unfair to him.

Walker Comes as Bricklayer.

President Walker, it is said tonight, will go to speak at the Farmer-Labor convention to rally the isolationists and opponents of the government in the name of the coal miners. He is coming to the convention as the delegate from the bricklayers.

He added that to nominate the President as a candidate was not unfair to him.

The two statements were the first regarding 1924 to be made since Mr. Harding's death by any of those in the group that made the successful fight for his nomination. There were indications that the isolationists and opponents might follow shortly which would determine whether the Harding organization is to remain intact in the coming pre-convention campaign, and whether its strength will be thrown on Mr. Coolidge.

Senator Willis gave out his statement on the White House campaign emerging from a long conference with the President at which they discussed the outlook in the middle west.

**CREDITORS AGREE
TO ACCEPTANCE
OF M'CRAY PLAN**

Indians, Ind., Sept. 7.—Creditors voted to accept his proposal that he surrender to them his various holdings on which he places a value of \$2,325,417. A creditors' committee of five individuals and a banking institution as trustee will operate or liquidate the property in order to meet the government's obligations, which he says should be lent to the league of nations in order to blockade Italy into submission to the league.

Tristes of Europe.

"Great Britain will fight no more for anybody in Europe. She is sick of being bled white for lost causes and forlorn hopes. If the tribes of Europe want more wars, let them understand that we are not interested in fighting for them. There are pacific lunatics who actually propose that the British fleet should be lent to the league of nations in order to blockade Italy into submission to the league.

**Collapses and Dies After
Drinking Glass of Beer**

William Roos of 3024 North Albion avenue walked into a saloon at 2650 North Kedzie avenue yesterday afternoon and shortly after drinking a glass of beer fell unconscious. He died in a police ambulance on the way to the county hospital. An examination of his body will be made today.

A Monstrous Propos.

The Daily Mail, owned by Lord Rothmer, who has been a bitter opponent of the government since he parted company with former Prime Minister Baldwin, has proposed that he have been a personal quarrel, quoted The Times in cable and then says:

"It is a monstrous and wicked proposal, and we hesitate to credit the dispatch to the highest authority alleged. But with a government which allows Lord Robert Cecil to lead it by his hobby, only one thing is folly may be contemplated. If the British government were to take such steps for coining Italy or quarreling with her, we tell Mr. Baldwin plainly that he and his cabinet will be buried from office as ignominiously as was the coalition when it attempted to draw the nation into a criminal war over China."

In the meantime British diplomats believe that events are moving towards a solution, and it is not doubted that among the factors is knowledge that Great Britain is ready to back its words with deeds, if necessary.

ITALY WILL NOT ARBITRATE

BY V. DE SANTO.
(Chicago Tribune Foreign News Service.)
(Copyright: 1923 by The Chicago Tribune.)

ROME, Sept. 7.—[Tribune Radio.]—News from Belgrade reporting that the Yugoslav government proposes to submit the Flume question to the Swiss president to arbitrate fore shadow trouble. It is asserted that the intermediary will not accept an intermediary or arbitrator. It is said that he will stand firmly by the Rapallo to treaty, to which Yugoslavia already agreed.

It is said also that the premier believes the time has come when the Flume problem, which has dragged several years, must be settled. He insists that Italy's proposal for a settlement be accepted by Sept. 15.

It is said also that the premier believes the time has come when the Flume problem, which has dragged several years, must be settled. He insists that Italy's proposal for a settle ment be accepted by Sept. 15.

BOOKS

Critic Disarmed
by the Sincerity of
Mrs. Wharton's Book

By Fanny Butcher.

Mrs. Wharton's "A Son at the Front" (published yesterday) is the honest possible kind of book to write a criticism of. It is so completely and thoroughly itself and such a fine piece of sincere work that there is nothing to say about it more than to say that it is. It is the story of Paris

from the original appearance in the book is on the way. The patient with us.

same position. As the book closes she is head of the mail order department at a salary of \$15 a week, as smartly dressed as any one on 5th avenue.

She has a sudden eagerness to see how her husband has fared during the years in which they have been separated. She has enough poise, when she sees him happily married to a woman of her own age, to keep her husband from having a very successful person with plenty of money, never to let him know that she was considering returning to him. But she goes back to her smart little manless flat in Waverley place, and cries to the only alive thing in it, a cat, "O, Mitti, Mitti, I love you so—I love you so!" It isn't to the beginning and the end of the book that one might take exception. The beginning of her career is a type beginning. The youthful eagerness to look like one's self is admirable for at least one-half of the girls who go to work. The ending of the book is quite as logical. When human-kind fails one, the devotion of a pet wrings one's heart, though I must admit that I never knew a cat which supplied much comfort.

It is the middle of the book which seems unreal somehow. Mr. Norris, in the first place, is in such deadly earnest that he makes a perfectly good story seem dull. There isn't much bite in the taste of the wine of life which he gives his readers. It's a flat tipple. On perhaps, a better company, "The Three Musketeers" has a more logical and more interesting answer: "The Three Musketeers." But a second choice almost instantly followed: Walter Pater's "Marinus the Epicurean," so may I be allowed to wish that I had written those two books more than any others in the world—or one or the other!

Twenty years ago, when I first remember the club, Max Baerbohm and H. G. Wells were among its distinguished members. Today Sir William Orpen, the famous painter, is often to be seen there. Maj. Putnam is one of the few publishers who have ever been members of the Savile.

Lord Curzon of Kedleston, the British foreign minister, was chairman there for three years. They have done an amusing and perhaps quite logical story. They have printed all of the poems without the name of the poet responsible for them. The names will be disclosed in the next issue. The Bookman did some such thing a few years ago, and it was fun guessing who wrote the verses. In this case only a few of the contributors will know. Witter Bynner is one of the associate editors. By the way, Palme announces a prize of \$50 for the best lyric published in its pages during the first twelve issues, and another prize of \$10 for the best poem by a Maryland-born person published during that same period. The prize will be raised to \$15 if the poet is born in Worcester County. The donor, who wishes to discover if there is any of the spirit of Palme left in Maryland," which is a wholly estimable wish, it seems.

The donor, who wishes to discover if there is any of the spirit of Palme left in Maryland," which is a wholly estimable wish, it seems.

It is the middle of the book which seems unreal somehow. Mr. Norris, in the first place, is in such deadly earnest that he makes a perfectly good story seem dull. There isn't much bite in the taste of the wine of life which he gives his readers. It's a flat tipple. On perhaps, a better company, "The Three Musketeers" has a more logical and more interesting answer: "The Three Musketeers." But a second choice almost instantly followed: Walter Pater's "Marinus the Epicurean," so may I be allowed to wish that I had written those two books more than any others in the world—or one or the other!

Twenty years ago, when I first remember the club, Max Baerbohm and H. G. Wells were among its distinguished members. Today Sir William Orpen, the famous painter, is often to be seen there. Maj. Putnam is one of the few publishers who have ever been members of the Savile.

Lord Curzon of Kedleston, the British foreign minister, was chairman there for three years. They have done an amusing and perhaps quite logical story. They have printed all of the poems without the name of the poet responsible for them. The names will be disclosed in the next issue. The Bookman did some such thing a few years ago, and it was fun guessing who wrote the verses. In this case only a few of the contributors will know. Witter Bynner is one of the associate editors. By the way, Palme announces a prize of \$50 for the best lyric published in its pages during the first twelve issues, and another prize of \$10 for the best poem by a Maryland-born person published during that same period. The prize will be raised to \$15 if the poet is born in Worcester County. The donor, who wishes to discover if there is any of the spirit of Palme left in Maryland," which is a wholly estimable wish, it seems.

AUTOS WIN RACE FOR LIBERTY OF NAVAL VETERAN

Buddies Outspeed Train Bearing Dixie Governor.

Jackson, Miss., Sept. 7.—The American Legion today organized a pardon for Sharp Welsch, former service man, as the result of an interstate race. The race, between two powerful automobiles, one from Jackson to Canton, twenty-four miles, the other from Pickens to Canton, twenty miles, and an Illinois Central flyer with Gov. Russell aboard, bound north from New Orleans.

The legionnaires had set out to meet Gov. Homer Castell at Canton before the train crossed the state line at Oskaloosa. They won the race with only eight minutes to spare.

Served in Navy During War.

Welsch served in the navy during the world war and, according to the veterans' bureau, it later developed he had become mentally defective as a result of exposure at sea. In 1919 he committed manslaughter in Jasper county. Despite the pleas of the legion, Gov. Russell refused clemency.

Curtis Green, state commander of the legion, heard a rumor today that the governor would New Orleans. By the time he had confirmed the report, he was advised Mr. Russell had boarded a train for Jackson. Realizing the governor had to travel only eighty-nine miles to enter the state, Green got busy.

Phone Acting Governor.

He telephoned Lt. Gov. Castell at Pickens to go to Canton as quickly as possible. Green, Welsch's attorney, and Secretary of State Joseph W. Bower, armed with the legal pardon forms, started from Jackson in another car.

The Lieutenant governor hung on for dear life while Hards McGee, former service man, drove his car at high speed from Pickens to Canton over the same route the drivers had taken. The cars drew up at the Madison county court house simultaneously and the Lieutenant governor signed Welsch's pardon at 16:18 p.m.

The train bearing the governor crossed the state line at Oskaloosa at 16:26.

Welsch will be sent to a government hospital in Wyoming where specialists declare, he can be cured of his mental trouble.

PLAYGROUNDS OF SCHOOLS MAY GET NEW SYSTEM

Reorganization of the public school playgrounds, including the shifting of control over the playing fields from the business manager to the superintendent of schools, was discussed favorably yesterday at the initial meeting of a special board of education committee. Since the board took over the playgrounds last year, considerable friction has existed because attendants have been under more than one head.

Yesterday, the board, represented by Alderman Oscar Nelson, appealed to the committee to centralize the authority over them. Frequently playgrounds were mismanaged because of diversified orders, they declared. Centralization of authority and employment of a supervisor of playgrounds, together with the assignment of one attendant to each playground, will go before the board.

Every school child will be given a chance to contribute to the Japanese Relief fund on next Tuesday and Wednesday, it was announced by Superintendent Mortenson. A board rule prohibiting the taking up of collections in schools will be waived.

FREE DRIVER ON PLEA BY WIDOW OF AUTO VICTIM

On the plea of the widow of Samuel Abramson, 5350 Montrose avenue, who was killed in an automobile accident near Goshen, Ind., Joel Sellman, a Chicago real estate salesman, was released yesterday from the Elkhart county jail in Goshen, where he was being held on a charge of manslaughter in connection with Abramson's death.

Sellman had been taken into custody when Ralph Abramson, 18 year old son of the victim, testified he was driving at a speed of fifty-eight miles an hour when the accident occurred. The machine in which the Abramsons and Sellman were returning from New York sideswiped a car driven by D. E. Vines of Minneapolis, overturning it and killing the occupants of both cars. Abramson, who owned a hardware store at 532 North Western avenue, was killed instantly.

Despite the charges filed by the son, Mrs. Abramson said she revered the lifelong friendship between her husband and Sellman and asked that he be not punished.

She Knows Tribune Want Ads

Nothing creates confidence as quickly as having that confidence justified time after time. Mrs. T. L. Credlebaugh, 4510 W. Fifth Ave., gave us this Want Ad for August 26, and refused to consider increasing the order to two or more days:

512TH AV., W. 4510—TO RENT—3 easy rms., \$10 per wk. Needs \$200.

The next day she said, "Yes, I rented the room yesterday. There were 50 or 60 calls in answer to my Want Ad. I have used Tribune Want Ads before, and have never had to use more than one to rent a room. That is why I always order my Want Ads for only one day."

Results cannot always be secured by one Want Ad, but Tribune Want Ads come nearest that standard of service. They give the quickest results possible and seldom fail even on the slowest of days. Call or wire proposition. Phone Central 0100.

POLITICIAN

2 DRIVERS HELD FOR KILLING OF "AUNT JEMIMA"

Six Sent to Bridewell for Drinking.

The clock indicates the number of deaths caused by automobiles, guns, and moonshine in Cook county since Jan. 1.

and the children's watchword is "Let's lower the pack."

The children are taught the state and city regulations pertaining to vehicles and traffic, and are advised never to "hitch" behind trucks or automobiles. The danger of crossing the street when driving, the necessity of caution when boarding or alighting from street cars, and the advisability of looking both ways before crossing the street are stressed.

Children dealing with the number of children killed in years past, the manner in which they are killed, and how the accidents could have been avoided are to be written.

Six Drivers Are Jailed.

Judge John Haas in the Speeders' court sentenced Anthony Severon of 2311 North Kilpatrick avenue, to sixty days in the house of correction and fined him \$50 and costs after a police officer testified he had been driving an intoxicated drove into a milk wagon and attempted to escape arrest.

Other drivers fined and imprisoned for driving while intoxicated were:

GEORGE WINNETTTON, 1024 Avenue J, sent up for sixty days and fined \$50. Witnesses said he drove into a taxicab yesterday. It was necessary for a passenger to testify that Adams' truck, leaving an alley on 48th street near Prairie avenue, collided with Seymour's automobile, which bounded up on the sidewalk where the aged Negro was walking, struck her down and crashed into a building. The jury decided the drivers were equally responsible.

Miners Yield to Gov. Pinchot.

(Continued from first page.)

ment of the anthracite strike was expressed at the White House this afternoon.

President Coolidge, it is said, felt there should be the strongest condemnation given Gov. Pinchot.

The resumption of operations in the anthracite fields will make unnecessary resort to the plan of the federal fuel distributor for the distribution of substitute fuel.

NO FUEL FAMINE HERE.

There is little danger of a fuel shortage in Chicago, according to Secretary of the Interior, R. M. Moore, of the council high cost of living committee, yesterday, although hardship may be found among the poor "unless the discrimination against the small dealer who sells coal in small quantities is abolished."

A canvas of local coal yards reveals that there is on hand approximately 1,000,000 tons of anthracite, of which 1,800,000 tons are used yearly in the city, the report indicates.

The following variation of prices was found among coal dealers by Mr. Russek, who asserts the lowest price quoted is as nearly a fair price as can be fixed:

Kind of coal	Highest and a	
	per ton	per ton
Chestnut	\$16.00	\$16.00
Penn coal	13.50	16.00
Ill. mine run	7.00	18.75
Ill. mine	10.00	12.00
Lump	8.50	9.75

Poland Relentlessly Will Collect Taxes, It Warns

WARSAW, Sept. 7.—[Tribune Radio.]—Finance Minister Kucharski yesterday opened the third oriental fair at Tivoli with an address, reviewing Poland's financial situation. He said the tax recently voted will sufficiently be collected to balance the budget according to the school department.

SEEK TO CLOSE CURRAN'S PLACE UNDER RUM ACT

Injunction proceeding to close the premises at 2023 South Racine avenue, occupied by State Representative Thomas Curran for the period of a month, to conduct a search and seizure act, will be instituted on Monday, according to an announcement made yesterday by State's Attorney Robert E. Crowe. The property is owned by Mrs. Gloria Carmody. Curran holds a lease which does not expire until Jan. 31.

Representative Curran, one of the small leaders in the legislature and dispenser of patronage in the west

park system, resides on the second floor of the building and is supposed to be the proprietor of a soft drink establishment on the first floor.

Many complaints have been received at the state attorney's office against the place and a large amount of evidence will be presented.

Curran, 40, Charles, arrested a number of times on robbery charges and facing commitment to the St. Charles reformatory, escaped on Wednesday from the juvenile detention home.

FALLS TO DEATH IN SHAF.

Atmos. The 6015 Woodlawn avenue, occupied by the Big Ten grocery at 1901 East 63rd-st, was found crushed to death yesterday morning. The body was found in the Kenwood apartments at 6311 Kenwood avenue. Police believe he fell into the

WOMAN UNHURT AS INTERURBAN WRECKS MOTOR

Mrs. Robert Fulton, wife of the president of the Fulton Press, 127 North Wells street, had a narrow escape from death yesterday when an automobile she was driving was struck by a Chicago, North Shore and Milwaukee limited train at the Forest avenue, in Wilmette.

Mrs. Fulton, who resides at 2520 Drave avenue, Evanston, had been visiting friends in Wilmette. She was driving home when, as she reached the crossing, the noise of an approaching

Northwestern train drowns out warning bell on the clearing track, she failed to stop.

Her machine had almost cleared the first track when the limited, traveling at high speed, struck it, turned it 90 degrees around, and buried it on the other track. The automobile was wrecked, but Mrs. Fulton escaped with out a scratch.

Texas Anti-Saloon League President Is "Beaten Up"

Dallas, Tex., Sept. 7.—The Rev. A. C. Webb, president of the Anti-Saloon League in Texas, and a prohibition worker of national repute, was beaten up by a white man of undetermined identity this evening.

TALK ARGOT OF BULL RING AS FIRPO TRAINS

By SID SUTHERLAND.
Atlantic City, N. J., Sept. 7.—[Special.]—Training for a boxing match consists of doing certain things again and again until they become automatic and the fighter is in physical condition to maintain a terrific pace for the specified number of rounds.

It is obvious that to report these reiterated incidents from day to day would be little value to the public, the reporter not much interested on the part of the reader. And yet there must at the last discuss these phases of physical preparation, for they are, in combination with the mental workouts, the only peg on which to drap an opinion as to the boxer's progress in the final clash.

What to do? Luis Angel Firpo, doing daily to condition himself for his battle with Jack Dempsey next Friday, and as a part of his activities, what will be the outcome of the fight? The first question this article will address itself; any reply to the second must of course be pure conjecture.

Firpo in Ring.

Having reached the platform and bowed solemnly once more to the plaudits of the easily excited, Firpo mounts the steps and enters the ring. Lavelle, followed by Vega, walks along the ropes to his station in the south corner, crosses his arms on the top rope, and waits.

And it was at this moment, the first afternoon I visited the camp, that I got an inkling of the tactics behind this training. For, taking a position on the ground near Lavelle's feet, I heard him murmur:

"Listen, campion." "Ready, champion." I translated. "That's strange. What do we get that 'champion' doesn't mind? What's this? La Vega glanced at Vega.

"Saludo al futuro camion," quoth Vega; as he handed the iron handled skipping rope to Firpo, and called "Time."

"Why should he salute the future champion so earnestly?" was a natural question as the Buenos Aires crowd hooted to the ring ropes. For three minutes this form of exercise continued—it is splendid for keeping leg and abdominal muscles taut and for improving the wind—and, inclining closer, for three minutes I listened to the whispered dialogue of the pair above.

"He's rounding into condition very satisfactorily," Lavelle said.

"Indeed," Vega rejoined. "And he laughed this morning when I translated that New York story about Dempsey knocking out Jack McAuliffe in a round."

"Yes, he laughs at such training camp publicity today," Lavelle remarked. "A week ago he frowned."

Vespa.

As if thine, by some strange chance, happen to be a Spanish speaking American in earshot Lavelle has complicated the instructions he gives Firpo by mixing up English and Spanish words with the argot of the bull ring. For example, Vega looked at the watch; ten seconds remained of the first three minutes.

"Vespa," he said softly.

"Vespa" has no translation in our language; it is a word describing a sudden shuffle of the feet made by a swordsman to confound the bull. In this case, Lavelle had speed Firpo to confuse the half circle of the rope singing as it flew over his head and under his feet.

Joe Cann entered the ring. The donn'd huge sixteen ounce gloves, and went to their corners. At Vega's command they touched gloves and began to spar, repeating every day since what they did on Labor day.

Immediately appeared strategy, and psychology.

McCann, bent over, circled about with head weaving as Dempsey is supposed to fight, feinted with his right, and hooked Firpo solidly on the chin with a sweeping blow. The big fellow stepped back, dropped, and opened his left glove in that instinctive, apparently hopeless way of his, and poised his right.

BICYCLE STARS RACE TODAY FOR NATIONAL TITLES

Forty-three riders, representing thirteen states, will compete in the national senior and junior bicycle championships sponsored by The Tribune. It is to be held in Humboldt park this afternoon and tomorrow morning. Racing today will start promptly at 2 o'clock, and the first race tomorrow will be called at 8 o'clock in the morning.

Those who compete in the national championships have earned the honors by going through a series of eliminations in their own respective states. Those who were held in the various cities and the qualified men eligible for the national race, resulted in undisputed state junior and senior champions being determined.

Eight Races in All.

As a result of this important elimination series, A. R. Jacobson, chairman of the board of control of the Amateur Bicycle League of America, yesterday asserted the field is one of the most representative which ever faced a starter in the national, and that the winners in each division will be entitled to the undisputed American title.

There will be four races in each class. In the senior division the contestants will ride one quarter of a mile, one mile, one-half mile, and five miles un-paced. The juniors will race one-quarter of a mile, one-third of a mile, two miles, and one mile un-paced. The first four places in each race will count for points. The winner will receive five second places, three third places, two, and fourth place, one. The rider in each division scoring the highest number of points in the four races will be proclaimed the national champion and will be presented with the official A. B. L. of A. medal, emblematic of such an honor.

Twenty events and as many seniors will be held today. All other races will be held tomorrow morning.

Chicago and the state of Illinois will rely upon Ed Walsh of the Opal A. A. and Alphonse Verteren of the Belgian-American C. C., senior and junior champions respectively, to win either national championship. Verteren rates a strong favorite for honors in the junior section because he is an amateur sprint racer and a splendid un-paced rider.

Everything Ready.

All riders in the city and most of them reported over the course yesterday. Seats have been drawn and the contestants given final instructions by Chairman Jacobson.

Stands for 5,000 spectators have been erected on the inside of the course at the finish line, while platforms have been built for officials. Programs will be furnished free of charge and Frank Kunkel will keep the crowd informed as to the results and the events to be held.

I. A. C. RELAY "4" SEEKS NEW MARK IN GOTHAM TODAY

New York, Sept. 7.—A formidable army of 144 track and field stars from every section of the country, including thirteen National A. A. U. champions and sixteen athletes who wore the stars and stripes at the last Olympic games, will test their speed and brown tomatoes at the pre-Olympic carnival at the Yankee stadium in the pre-Olympic carnival of the White Athletic association.

Among the outstanding events, the relay contests between east and west, the "record mile," and the sprints are expected to bring out especially keen competition. In the 6,000 meter relay, the Illinois C. quartet, which will attempt to set a new world's record, is composed of Joe Ray, Ray Watson, Ray Baker, and Earl Krogh, present holders of the world's four mile relay mark.

In his attempt to break the mile record, Ray will have opposition from his two team mates, Watson and Baker, as well as from several crack eastern distance men.

Gilmore in Duluth for
Sculls Race with Hoover

Duluth, Minn., Sept. 7.—W. B. Garrett Gilmore, Philadelphia, holder of the Canadian singles sculling title, arrived today to begin training for his world's championship race with Walter Hoover on Sept. 15. Gilmore was accompanied by his wife and coach, Frank Muller, of the Bachelor's Barge club.

Gaelic A. A. to Hold Open
Track Meet on Sept. 16

The Gaelic A. A. will hold an open track and field meet at Riverton park on Sept. 16. Thirteen events, including a 100 yard dash for women, will be held. Entry blanks can be secured from Frank Martin, 106 South La Salle street, where all information can be obtained.

BICYCLE RACING.

NATIONAL championship bicycle races sponsored by The Tribune will be held this afternoon and tomorrow morning in Humboldt park. Admission is free. The program stands on The Tribune's annual calendar of free amateur sport entertainment for the Chicago public.

In these days of the automobile, those who are familiar with the situation often think of bicycle manufacture as a decadent industry. Dealers, how-

ever, will tell you more bicycles are made than ever before.

I was the little children calling
I was the world to me
I was my ship loaded with sunsets
Across an ever-changing, colorful sea.

And it shall bring for my headache
Cool winds from a landlocked fern,
Pale green of the world is Soaring,
The calendar October burns.

The winds of life shall be bird songs,
The lungs of a child at play,
And fresh, sweet winds shall rest me,
Blowing over the prairie at close of day.

ZANNA FAITH.

DRINK SHIP.

POLICE FIGHT IT OUT IN FIELD MEET TODAY

By WALTER ECKERSALL.

(Picture on back page.)

Earlier Chicago.

Dear Harvey: The Academy of Music on Halsted near Madison was the first theater built after the fire. It was run in about 30 days and opened early in 1912 with a lurid drama called "The Great Chicago." —

During 1912 many stars appeared at the Academy, including Mrs. F. Horne, Matilda, Heron, George L. Fox, Oliver Dowd, Hyron, Fanny Louise Buckingham, Robert McWade, John E. Owens and the elder Sothern.

There were no theaters on the south side. Nixon's Amphitheater, created for a circus, began business as a regular theater the same year. It was on Clinton near Randolph. Tony Pastor, with Harrigan and Hart, Gus Williams, Kit O'Neill, and Jessie Engels, appeared there. Also Manning's minstrels, Orrin Hulse, etc.

The Globe theater on Des Plaines, near Chicago, gave variety and some drama. Emily and Betty Rige, noted ballet dancers, appeared at the Globe. Emily afterward became a successful legitimate actress. John, Jack, and Anna Firmin first produced the "New Magdalen" there.

The Academy later had a stock company, of which J. H. Blasdell was the head and J. C. Padgett played the "heavies." He was frequently barded from the gallery for his romantic villainy.

Some Real Athletes.

The field day, held for the first time last year, at the Chicago, was the most interesting and entertaining civic events.

The causal follower of athletics who does not believe a copper can run 100 yards under 11 seconds or cannot run a mile under 7 minutes, will be treated to a rare surprise.

Not only will there be the usual number of track and field events but there will be a pushball game by the mounted squad, a football game by the crack, cockade tilting, chariot racing, shuttle races on horses and foot and a good old-fashioned tug of war. In addition, there will be drills by the crack squad of the department on foot and also by the mounted division. During the delays concerts will be given by the police and fire department bands.

The grand on each day will be

regatta Olympic fashion.

Walsh Wins Hammer Throw.

The hammer throw, one of the regular events, was held yesterday because officials thought it best not to throw the weight with so many spectators present. The event was won by John Walsh of the Traffic squad with an effort of 131 feet, 4 inches. Michael Hogan of the 12th district was second with 126 feet, 5 inches. Pat Birmingham of the 13th district was next in order with a throw of 108 feet 3 1/2 inches.

Following is the program of today's athletic events and special features will be held between contests:

THREE ROUND DASHES.

2:30 p.m.—50 yard dash, semi-finals.

2:45—500 yard race, 540 yards (four men on team).

3:00—500 yard dash, final.

3:15—500 yard dash, semi-final.

3:30—500 yard dash, final.

3:45—500 yard dash, final.

4:00—500 yard dash, final.

4:15—500 yard dash, final.

4:30—500 yard dash, final.

4:45—500 yard dash, final.

5:00—500 yard dash, final.

5:15—500 yard dash, final.

5:30—500 yard dash, final.

5:45—500 yard dash, final.

6:00—500 yard dash, final.

6:15—500 yard dash, final.

6:30—500 yard dash, final.

6:45—500 yard dash, final.

7:00—500 yard dash, final.

7:15—500 yard dash, final.

7:30—500 yard dash, final.

7:45—500 yard dash, final.

7:50—500 yard dash, final.

8:00—500 yard dash, final.

8:15—500 yard dash, final.

8:30—500 yard dash, final.

8:45—500 yard dash, final.

8:55—500 yard dash, final.

9:00—500 yard dash, final.

9:15—500 yard dash, final.

9:30—500 yard dash, final.

OKLAHOMA ROW NOT U. S. AFFAIR, WEEKS DECIDES

Use of National Guard a State Privilege.

Washington, D. C., Sept. 7.—Secretary of War, in a telegram sent today to Representative Howard of Oklahoma, declared that a "declaration by a governor of a state of martial law, or that an insurrection against the government of the state exists, is a matter in which the war department can interfere."

The message was in reply to Representative Howard's request that the war department investigate the use of Oklahoma National Guard units in the enforcement of Gov. Walton's proclamation of martial law in Tulsa county.

The secretary's telegram was sent after he had obtained an opinion in the matter from Maj. Gen. Bethel, judge advocate general of the army.

No Letup, Walton Says.

Oklahoma City, Okla., Sept. 7.—[By the Associated Press.]—No moderation of martial law in Tulsa county will be granted. On the contrary, if any new order is issued in the situation, it likely will be the promulgation of military rule throughout the state, Gov. Walton declared here today in a formal statement to the press.

He is "determined to restore the supremacy of the law" in Oklahoma, "without which the state cannot attain its place in the forefront of the American commonwealth," he said.

Accuses Walton of Insanity.

Charged that Gov. Walton not only failed in the actions of marked violence, that his fight is directed only against the Ku Klux Klan; were made over today by N. W. Jewett of Oklahoma City, grand dragon of the Ku Klux Klan in Oklahoma.

Jewett charged that the Klan's "re-
volution of Gov. Walton as a member" was the principal cause of his fight
against the Klan.

LOCK-ISLAND VICE REGS PARADED ANEW IN COURT

Chicago, Ill., Sept. 7.—[Special.]—Witnesses in today's trial of the men accused with the murder of John Loney, accused Alvin Karpis, Billings, other saloon man and vice ring power, of desiring the death of John Loney, father of the slain man.

Fred Sinclair, a printer in the Rock Island News office, testified that not only did Billings offer him \$3,000 "if he would help him 'bump off' John Loney," but the same intent was to be paid if he could succeed in having Karpis arrested for the murder of Bill Gable, his partner.

It is alleged by the state that the enmity between Billings and Loney occurred in 1921, when Loney usurped Billings' position as head of the vice ring.

Louis Ortell, said to have been one of Loney's right hand men, and who is under suspicion of indictment as a result of the vice ring, spoke how the enmity between Loney and Billings grew over the division of vice profits.

W. Y. C. Raises Its Clerks; Seaboard Boosts Shopmen

The Seaboard Air Line railway notified the United States railroad labor board yesterday that 2,700 shop employees had been granted an increase of 2 cents an hour, effective Aug. 1. The New York Central has granted clerical and station employees increases from 1 to 2 cents an hour, effective July 1, an aggregate of \$1,341,682 a year. In the shop crafts on this road 21,282 mechanics and helpers were given a raise of 2 cents an hour. In the signalmen's department 3 cents was given to leading maintainers and helpers.

DR. ADAIR LOSES SUIT TO REGAIN OLD SCHOOL JOB

Court Rules Against Former Trustee.

Dr. Sadie Bay Adair, ousted member of the school board, yesterday lost her fight to win back her place on the board. Circuit Judge Francis S. Wilson denied her plea to force State's Attorney Crowe to begin proceedings against Miss Grace Temple, her successor, requiring the latter to appear by witness and show cause why his position.

Judge Wilson, in his decision, held that Dr. Adair's resignation, tendered to former Mayor Thompson and accepted by Mayor Dever, could not be withdrawn and was properly acted upon by the mayor.

As a result, it was said, the other four trustees who were ousted with Dr. Adair will not attempt similar action, if it is required, to regain their seats.

Judge Wilson's decision favored Dr. Adair, Attorney Chester Cleveland, who presented Dr. Adair's case, indicated he would appeal the ruling to the Appellate court.

Mayor Dever used the resignations to force the members appointed by Thompson off the school board. The other former trustees affected by Judge Wilson's ruling are Edwin S. Davis, William H. Severinghaus, Dr. Pauline Struwings and Mrs.

"I am of the opinion that an unconditional resignation cannot be withdrawn," Judge Wilson said in his decision, which agreed with the contentions of Assistant Corporation Counsel Leon Hornstein.

He is "determined to restore the supremacy of the law" in Oklahoma, "without which the state cannot attain its place in the forefront of the American commonwealth," he said.

Misses' poiret twill frocks with new necks, sleeves, trims

Decidedly smart for fall are these frocks that feature the favored slender silhouette; reasonably priced, too.

Navy, \$40—\$45 rosewood frocks

Novel button and braid adornment enhance the smartness of one style pictured, at \$40. Embroidery in new ways individualizes the other, at \$45.

Misses' late autumn coats

elaborately beffurred—richly silk lined

Coats that, according to fall fashion's edict, attractively change slimness into a flare at the hemline.

At the left a debonair style in luxurious velvet has a deep collar of vixen squirrel or of wolf; \$95.

*At the right a gerona coat cascades graciously into a flare and is enriched with collar and pockets of beaver or squirrel; \$125.

Men's, women's kerchiefs

of Irish linen with your name
or monogram embroidered free

Men's hdkfs.
with 1-4 inch hem
6 for \$2

Women's hdkfs.
with midget hem
6 for 1.65

Choice of 14 designs or your handwriting reproduced in pink, brown, green, lavender, red, blue, gray, yellow, black, white.

No C. O. D. orders can be accepted for these—first floor.

Women's new neckwear

priced vastly below regular

The group comprises vestee sets, collars, vestee and cuffs to match—of fine toast tint net;

21 1.50

These sets are daintily with real filet, fluted valenciennes lace, tucks, ribbon and embroidery; with bramley or tuxedo collar. Also collars and sets of real princess lace in white or cream.

Guimpes at 2.25

—real lace adorned

Long sleeved guimpes with puff sleeve effect, jenny or bramley neck, with real lace lace, emb'd'y, tucking edging.

First floor.

The Door of Desire
BY ROY VICKERS

SYNOPSIS.

Mrs. Thorne had been snared to Jacqueline Grove. They quarreled, and Jacqueline learned Martin's secrets. Julian, second Viscount Montore, Julian calls on Martin and demands he has just killed Thurrow, who had been blackmailing him. Julian asks Martin what he means, so he can get away.

A body is found at the bottom of the elevator shaft in the Montore house. Martin and Jacqueline discover that Thurrow was also known as Skiddy. Mrs. Skiddy, at one time a servant of the Montores, does not know that he had killed Thurrow, who are the same. Lord Julian's niece, discovers that her uncle is not the father of Mrs. Skiddy's son. Julian's son comes to visit her. Jacqueline calls at Mrs. Skiddy's, and finds that old Skiddy is her husband. Julian Montore, and that it was he who murdered old Thurrow.

He helps him to escape. Martin offers a reward of \$2,000 for information about the murderer.

Julian, the detective, discovers Julian has been masquerading as Lord Montore and that he is the murderer of Thurrow, his mother's husband. Jacqueline hides Julian in her home. The police find him there, but he manages to escape.

INSTALLMENT XLVIII.

LEONIE MAKES SOME PLANS.

"Get a good nerve!" commented Segrove admiringly. "But if he's thinking of the fire escape, I've got two men watching that as well. Here! Come on! This window looks into the garden. I should imagine."

"Hello!" exclaimed Segrove, and swore softly to himself. A tiny figure was swinging out from an angle of the fire escape. It touched the stone balustrade, and dropped on to it. Segrove shouted, and the door was answered by two men below, who suddenly sprang into view.

"Get him!" cried Segrove. But it was impossible to descend from off Julian went from the balcony to the nearest low roof with the unaided weight of a pendulum, from the roof of another and another, and so to the top of the passage.

"He has practiced this get-away, damn him!" muttered Segrove. "Still, I don't care."

Julian was running lightly along the top of the covered passage, while the men gesticulated in the garden below. As soon as he was within reach, he pulled himself up on to the garage roof. There was a splintering crash.

"Go through the skylight," said Segrove. He believed instructions in his pockets. "Get back into the house and go down that passage!" he ordered.

As they obeyed, he drew in his head and turned to Martin, and something in his glance made Martin realize that throughout the whole affair Segrove had probably refrained from involving him.

"This is going to be extremely unpleasant for you," Segrove said. "The chap hasn't got a chance."

Segrove strode across the hall, opened the front door, and beckoned in two other men. Martin stood irresolute. At that moment a sound merged with that of the battering at the end of the passage.

"Hello!" said Segrove again, and again swore softly.

Involuntarily they all stood still and listened. A grinding crash—another, dimly heard. Segrove and the men from the stairs flung themselves forward. Martin followed them. At their heels, he passed through rooms and passages unfamiliar to him and down a dimmed passage at the end of which the men from the garden were battering at a door. Just as he came in sight of them, the door went down.

"He's done it!" Martin heard Segrove shout. "Lord, what a nerve!"

The great doors of which Segrove had spoken so confidently stood gaping wide.

"My fault," said Segrove, surveying the wreckage. "I ought to have made sure that there were no cars for him to force his way out in. A self-starting car on the slow gear would make him of a padlock or a cross-bar. Extravagantly careless of me! Bedford will have the laugh on me over this."

"It's all right," Julian stupidly. Julian has got."

It was a day of intense suspense. Jacqueline gazed more widely the window of her little sitting room and leaned out, straining for a glimpse of the trees in the square below. She was glad the only accommodations which the quiet little hotel had been able to offer her was on the fourth floor; she looked out into the street, and sometimes a pigeon would sit on a bough and look solemnly back at her.

During the five days of her residence Jacqueline had scarcely left the place. At first she had not dared. It had been necessary to see that her car was safe, and to see for Julian's safety, who would go awry if she stopped thinking about him for one instant. Then a man had come news of his attempted capture and his son had filled in that he had made his decision to leave her retreat. She's thought now only of the moment in which the news papers would blare abroad the news that at last Julian had been captured and was safe.

The beloved in the case is the daughter of a doctor. The doctor, a kindly man, intended to a shifty-eyed young man. The last had HAD to become most young, man, come west because of certain dealings in the east. He's rather inclined to reform and go into the mining business with his father, but the darling of his heart has no intention of wasting any more time than possible on the desert air. (You will notice that the word "sweetness" has been eliminated—and with good cause.)

The beloved in the case is the daughter of a doctor. The doctor, a kindly man, intended to a shifty-eyed young man. The last had HAD to become most young, man, come west because of certain dealings in the east. He's rather inclined to reform and go into the mining business with his father, but the darling of his heart has no intention of wasting any more time than possible on the desert air. (You will notice that the word "sweetness" has been eliminated—and with good cause.)

A murder is committed. Who but the hero should be suspected of it? So much for the plot. To learn more of it wouldn't be good for you.

The continuity of "The Miracle Baby" is certainly nothing to brag about; but the actors on the whole did a good job. Jacqueline's was the most grotesque mockery of all. Julian—who was not really Julian but Mrs. Waddell's son—was not dead; he was again hunted, and this time his chance of escape was slender. She saw no chance of helping him again. She wondered whether, should the chance arise, her sense of duty would make her help him as it had before. There was a sound at the door.

"Come in," said Jacqueline, wearily, and then, looking up: "Prewer! I am so glad you're back; I've missed you dreadfully."

Prewer advanced towards her, her eyes discreetly avoiding the traces of tears.

"And I'm glad to be back, my lady. I still think Mrs. Graham and Miss Gwendolyn could have managed without me, but still I've done as you said and come back—until everything was over. Miss Guyard," he added, with what in the less superior person would have been a snif, "is downstairs in the lounge. She wanted to see you before she went back to Finchley."

"O, yes," Jacqueline moved her hands nervously. "Yes, of course. I should like to hear. Ask them to show her up, will you, Prewer? And after that there's enough tidying to satisfy you. I should think. I've lost nearly all my belongings here and all in the most frantic muddle."

The light of battle sprang to Prewer's eyes.

"I quite understand, my lady. I'm sure we can be comfortable here. Will they to send Miss Guyard up?"

Three minutes later Leonie Guyard stood in the doorway. She showed the slightest trace of emotion or of fatigue. She fastened her gray eyes upon Jacqueline and said nothing until Jacqueline had risen and gone to greet her.

"Please come in, Miss Guyard. I am so glad you have given me this opportunity of a quiet chat with you. Sit here. This is as comfortable a seat as one ever finds in a hotel. May I order you some tea, or is it too early?"

Jacqueline took the proffered chair and then abruptly removed her small, tightly fitting hat.

"This is so hot that it has given me a headache," she said. "The sight always gives me a headache." Her eyes flashed over Jacqueline's face. "No, thank you, I do not want tea. You are still wearing your summer clothes. Does that mean that no one has guessed anything?"

"They guessed," said Jacqueline, distressfully. "They came to take me, but he defected and got away. At any minute we may hear he has been taken again. His chance of safety, now that we neither of us can see him, seems small."

Jacqueline bit at her full under lip.

"He has little chance of escaping them if he stays in the country," she said, "but you remember, it was not his plan to do so. He has come to get abroad—perhaps, I suppose, and passages booked in advance. It will be risky, but think how clever he is at disguising himself! You have been told about the Falcon demands it as a weapon if he is tried again, he can be a passenger. How did they discover him, madam?"

Jacqueline took up Martin's letter.

"It is in here," she said. "Perhaps it would be simpler if you were to read it."

"I understand that a private detective called Segrove,"

Jacqueline interrupted her savagely.

"It was he! I knew he was clever. He came down to the cottage."

"Yes, that is in here, too," Jacqueline's finger tapped the letter gently.

"And all that Mr. Segrove told you about—the deception. And that now you are dead, and the only one who holds the proof."

"And have you been told about the Falcon demands it as a weapon if he is tried again?"

"Unless the reward of \$5,000 is withdrawn," supplemented Jacqueline.

"Unless the reward of \$5,000 is withdrawn," supplemented Jacqueline.

"Unless the reward of \$5,000 is withdrawn," she said.

Chinese Students in City on Way to School

"Sympathy and funds for Japan in the present distress will help in creating a better understanding not only between United States and Japan but also between China and Japan," W. P. Hayes, president of the Chicago Y. M. C. A., said in an address yesterday noon welcoming a group of Chinese students who arrived in the morning from Canton. He spoke at a luncheon given the visitors at the Central Y. M. C. A., 19 South La Salle street, under the direction of L. C. Hollister of the foreign students' department. Collections for Japan will be taken in the cities of China.

T. Chuang, a graduate of the University of Illinois, a present resident of China from which most of the students in Chinese, who conducted the party to America, also declared genuine sympathy was felt in China for the suffering in Japan.

Others who spoke at the luncheon were: Barton K. On, Chinese students' club, University of Chicago; Y. L. Ma, Chinese representative of the United States; T. C. Wang, Student Christian association.

"There were 180 Chinese young men and women in the party when we left China," said Mr. Chuang. "Of these ninety-five came from Tsing Hua College, which was founded by the indemnity fund which America returned to China after the Boxer rebellion. The other sixty-five came on their own account."

"The students will be distributed among twenty-three American colleges.

There are five girls out for Cornell, New York, two each for Oberlin and Vassar. Among the volunteer students four will attend Northwestern University and three the University of Chicago."

TRIBUNE COOK BOOK

BY JANE EDDINGTON.

Hot Peaches.

Cooked and hot peaches are delicious, but there is no need of having a bit of soggy pie crust with them. If something of the sort is considered vital, a slice of toast would be better; yet, almost as doubtful as pie crust is French toast, pleasant in the extreme with cooked peaches, but not to be recommended for frail digestions.

The students will be distributed among twenty-three American colleges.

There are five girls out for Cornell, New York, two each for Oberlin and Vassar. Among the volunteer students four will attend Northwestern University and three the University of Chicago."

than plain peaches and cream, and more stimulating digestively. Fried peaches, cut them up in nice pieces, roll these in sugar and gently cook, "fry" in a little butter for about five minutes. Or cook them first in the butter, and then add the sugar.

Baked peaches are easy to prepare, and may be variously served. If the skin does not come off easily, boil the water may be poured over the fruit; then peel, cut in half and remove pit. Put halves in a lightly buttered dish,

bake until tender, and serve with cream and sugar, or baking pie which comes out to the table when it is used, the pits filled with sugar, dotted with butter, and the peaches cooked for twenty minutes or until soft, but not until they break in pieces.

Any cooked peach may be sliced and mixed with whipped cream and served in elegant fashion.

A Friend in Need

BY SALLY JOY BROWN.

Of Interest to Mothers.

"We have a baby buggy and some clothes we'd be glad to give to some one who needs them. They are for a baby not older than one year.

"Mrs. R. W. E."

Good news for some mother.

In Need of Bedding.

"You have been kind to a friend of mine, and it gives me courage to approach you with my trouble. I have a house full of youngsters and a husband who is not strong, so I come to

you for help in the way of bed clothes and a mattress. I have two beds and scarcely any bedding. Mrs. C. B."

I hope your troubles will soon be remedied. I'm sure they will be when a few of us who are overburden with bedding realize your needs.

Sorority to Give Bridge Party.

Mrs. Wayland G. Hier will open her home at 122 Concord road, Kenilworth, tonight at 8 o'clock for a bridge party for the benefit of the house fund of Gamma Phi Beta sorority.

BEAUTY ANSWERS

BY ANTOINETTE DONNELLY.

CONSTANT READERS: YOUR PROBLEMS, WHILE NOT EXACTLY Venuslike, are not sufficiently off to make you different from other women. Few there are who may boast of ideal measurements. Your waist line and arms are not all that you desire. And that isn't much to brag for, if you are willing to do the exercises I will send to you in return for a stamped, addressed envelope. But you must promise to do them every morning and night for six weeks, because less time than that may show some decrease, but not as much as I want, to prove to you what you can accomplish by sticking to them awhile. And then if you will swear that will help ever and ever so much.

YOURS TRULY: YOU WANT TO BE PRETTY? JUST LONGING TO BE PRETTY IS A PERFECTLY NORMAL LONGING, TOO. BUT WON'T YOU WRITE AND TELL ME SOMETHING ABOUT YOURSELF, AS I MAY HELP? IT IS NOT EVERY ONE'S PRIVILEGE TO BE PRETTY, BUT ONE MAY DO MARVELS WITH A COMPARETIVELY SMALL CAPITAL, AND THERE ARE FEW WOMEN WHO CANNOT MAKE THEMSELVES ATTRACTIVE BY DEDICATING ATTENTION TO THE IMPORTANT ELEMENTS OF HYGIENE AND BECOMING DRESS.

GERE: HANDS LIKE BEETS: YOU'VE HAD LILIES, WERE YOU GIVEN THREE WISHES? ALL RIGHT, JUST TRY THIS EVERY NIGHT FOR THREE WEEKS, AND YOU WILL SEE A CHANGE: EQUAL PARTS OF CAMPHER AND GLYCERINE MASSAGED IN WELL. WEAR BIG GLOVES AND LEAVE ON A BIG DAB OF THE LOTION FOR EXTRA MEASUREMENT. IT IS EFFECTIVE, SO, REALLY.

MURIEL: BLONDES MAY WEAR CANARY YELLOW. BLUE, BLACK, PALE GREENS AND WHITE SHOULD ALSO BE BECOMING.

The simplest way to end a corn is Blue-jay. Stops the corn instantly. Then the corn loosens and comes out. Made in clear liquid and in thin plaster. The action is the same.

At your druggist
Blue-jay

TANGLEFOOT

Sticky Fly Paper

Tanglefoot rid's your home of flies. Tanglefoot is the most sanitary destroyers you can use. It does its work in a safe, non-toxic, non-hazardous and dangerous features. Used world over for two generations. Tanglefoot is the best sold by grocers and druggists.

Today's Weddings Make September Seem June's Rival

The list of weddings today makes one think the summer is beginning instead of ending for seldom are there so many ceremonies on one day in any other month than June. Three of the most important are taking place out of town, however, which is keeping many Chicago friends of the three bridegrooms from attending.

In Milwaukee at 11:30 o'clock this morning Miss Elizabeth Daniel, daughter of Mr. and Mrs. Louis Daniel, of that city, will become the bride of Wilmeth Ickes, son of Mr. and Mrs. David L. Ickes of Hubbard Woods. Many members of the immediate family will witness the ceremony, which will be performed at the residence of the bride's parents, 615 Kenwood boulevard. After a few weeks in the northern woods Mr. and Mrs. Ickes will be at home at 703 Walden road, Winnetka. Mrs. Harold Ickes will give a reception in October for her son's bride.

The marriage of Miss Mary Knock Wilson, daughter of Mrs. William Clayton Wilson of Duluth, and David Walker Kimball, son of Mr. and Mrs. Curtis N. Kimball of Highland Park, will take place this evening at 8 o'clock at the residence of the bride's mother, the Rev. Noble S. Elderkin of the Pilgrim Congregational church reading the service. Miss Mary Kimball, the bridegroom's sister, will be one of the bridemaids, the others being Elizabeth Lynn of Duluth. Mrs. Frederick Percival Champ of Logan, Utah, will be her sister's matron of honor. William Wallace Kimball will act as his brother's best man. Mary Knock Wilson will be the flower girl and David Kreutzer the train bearer. Both children are cousins of the bride and reside in Waukesha, Wis. Mr. and Mrs. Kimball will be at home after Oct. 15 in Evanston.

Frank O. Wetmore of Chicago will act as best man at the marriage of his son, Horace Orton Wetmore, and Miss Lucia Pauline Ambrose, which is taking place this evening at 8:30 o'clock at the Methodist Episcopal church in Nevada, Ia. After the ceremony there will be a reception at the residence of the bride's parents. Mr. and Mrs. W. O. Ambrose, parents of the bride's attorney, are a Chicago couple, but all their relatives reside here. They are Leonard A. Busby, Eugene Field Englar, Fernand However, and Charles K. Knickerbocker. Mr. Wetmore and his bride will spend the winter with his parents at their residence, 5027 Drexel boulevard.

The Rev. Peter Wolcott will read the service which will mark the Ruth Clegg Bovington, daughter of Mr. and Mrs. Eugene A. Bovington of Highland Park, the bride of Joseph Wilson Rice, son of Mrs. Wilson Samuel Rice, this afternoon. The wedding will take place at 4:30 o'clock in Trinity church, Highland Park, and will be followed by a reception at the Bovington residence. Mrs. James Ingham will attend the bride as matron of honor and her sister, Helen, will be maid of honor. The bridegroom will be Mr. Alvin Downey, Miss. Virginia Collins, Miss Carrie Sullivan, Miss Dorothy Curtis and Miss Katherine Ragdale. Louis Tilden will act as best man for Mr. Rice and ushering will be Harvey Page, John Premer, Thomas M. Smith, Arthur Witzelius, Frank Priebe, William Ryan and Burton Mudge, Jr. Mr. and Mrs. Rice will be at home in Evanston after Oct. 1.

Plans for a church wedding for Miss Frances Cynthia Dorr, daughter of Mrs. Harvey Hause Dorr of 6520 University avenue, and R. V. Burts of Chicago, son of Mr. and Mrs. Edwin L. Burts of Hudson, Ill., were abandoned the other day because of the illness of the mother of the bride-to-be, and instead of taking place in one of the Woodlawn Park Methodist Episcopal church the marriage will be solemnized by the Rev. R. Scott Hyde at the residence of the bride's mother. Only members of the families will be present.

Only the families and a few intimate friends will attend the marriage to-day noon of Miss Sarah Jean Gallagher, daughter of Mr. and Mrs. Frank H. Gallagher of the Orrington hotel, Evanston, formerly of Wilmette, and Arthur F. Marquette, son of Mr. and Mrs. H. C. Marquette of Indianapolis. The Rev. Ernest F. Tittle will read the service in the First Methodist Episcopal church of Evanston. Following the ceremony there will be a breakfast at the Orrington. Mr. and Mrs. Marquette will be at home at 900 Grant street, Madison, Wis., after Oct. 1.

Miss Muriel J. Edgeworth, daughter of Mr. and Mrs. James J. Edgeworth of 8146 South Green street, will be married to Joseph Fortune Blakemore, son of Mr. and Mrs. George E. Blakemore of 10216 Wallace street, this morning at 9 o'clock in St. Leo's church.

The bride will wear her mother's wedding gown of ivory brocade satin trimmed with Spanish lace. Mr. and Mrs. Blakemore will be at home after Nov. 14 in South Green street.

George F. Porter of 1338 North State street will arrive in Chicago to-morrow after having spent the summer abroad.

Dr. and Mrs. Wilhelm L. Baum will return to town from their farm near Waterville, Mich., on Oct. 1.

Mr. and Mrs. J. Russell Forgan have reopened their apartment at 230 East Delaware place, after having had a house in Lake Forest.

Mr. and Mrs. Frederic W. Upham of 942 Lake Shore drive have arrived at home from a three months' tour of Norway, Sweden and England. They expect to open their country place at Golf, Ill., for week-ends during the autumn.

Mrs. Hubert Burnham, who has been at the Chicago club at Clark street for the late summer, will have a house party this weekend at her Mackinac Island residence.

Mrs. Malak A. Loring of the Virginia hotel, who has spent the summer at the Sleepy Hollow Country Club in New York, will spend next week in New York.

Mr. and Mrs. Wadsworth R. Rothacker and daughter, Virginia, of 2919 Pine Grove avenue have departed for a stay of several weeks in California.

Mr. and Mrs. John A. Chatman of Lake Forest are giving a dinner this evening at the Oriental club for their niece, Miss Mae Morill Dunn.

Miss J. Butler Wright, wife of the third assistant secretary of state, has returned to her husband here.

Miss James R. Mann has returned from Boston Woods in the Woods mountain where she spent most of the summer and is in her apartment at the Highlands.

Miss Adeline Ovard, who has gone from Upperville, Va., to Long Island for a visit, made a brief stay in Washington with Miss Elizabeth Hanna on route. She left for New York yesterday.

Mr. and Mrs. Hans Magnus of 1241 Chafford road, Hubbard Woods, announce the engagement of their daughter Dorothy Emilie to Henry B. Alman, son of Mr. and Mrs. S. H. Alman of 340 Galt avenue.

Mr. and Mrs. James R. Mann of 1241 Chafford road, Hubbard Woods, announce the engagement of their daughter Dorothy Emilie to Henry B. Alman, son of Mr. and Mrs. S. H. Alman of 340 Galt avenue.

ANSWER TO WHAT'S
WRONG HERE

Never ask personal questions. It is a form of torture that should be against the law even in families.

"Make every pay day a save day." —PAUL N. KELVYN, clerk, 231 East Water street, Milwaukee, Wis.

The Tribune awards Mr. Kelvyn \$1 for the above and will pay him \$100 each day for the best motto submitted by a reader. Address "Motions" care The Tribune. Please state occupation.

ENGAGED

MISS CLARA GATZERT.
(Marcus Photo.)

Mr. and Mrs. August Gatzert of 401 Greenwood avenue announce the engagement of their daughter, Clara, to Frederick W. Spiegel, son of Mr. and Mrs. M. J. Spiegel of Kenilworth.

Announcement Made of Engagement of Miss Beatrice Fenton

One of the most interesting engagement announcements of the season is that of Miss Beatrice Fenton, daughter of Mr. and Mrs. Howard Withrow Fenton of Winnetka, to Stanley M. Morris, son of Mr. and Mrs. Frederick Kingsley Morris of the same place. Miss Fenton has been here in October, 1921, and Mr. Morris was graduated from Yale in 1910. During the war he served as a first lieutenant on the transport Leviathan. The wedding is set for Wednesday, Oct. 17, and will take place at 5 o'clock in Christ church, Winnetka, the rector, the Rev. E. Asher Goldsmith. Miss Beatrice's father, the Rev. Ernest F. Tittle, will read the service in the First Methodist Episcopal church of Winnetka. The bridegroom will be selected by the Rev. R. Scott Hyde at the residence of the bride's mother. Only members of the families will be present.

Plans for a church wedding for Miss Frances Cynthia Dorr, daughter of Mrs. Harvey Hause Dorr of 6520 University avenue, and R. V. Burts of Chicago, son of Mr. and Mrs. Edwin L. Burts of Hudson, Ill., were abandoned the other day because of the illness of the mother of the bride-to-be, and instead of taking place in one of the Woodlawn Park Methodist Episcopal church the marriage will be solemnized by the Rev. R. Scott Hyde at the residence of the bride's mother. Only members of the families will be present.

Gallagher of the Orrington hotel, Evanston, formerly of Wilmette, and Arthur F. Marquette, son of Mr. and Mrs. H. C. Marquette of Indianapolis. The Rev. Ernest F. Tittle will read the service in the First Methodist Episcopal church of Evanston. Following the ceremony there will be a breakfast at the Orrington. Mr. and Mrs. Marquette will be at home at 900 Grant street, Madison, Wis., after Oct. 1.

Miss Muriel J. Edgeworth, daughter of Mr. and Mrs. James J. Edgeworth of 8146 South Green street, will be married to Joseph Fortune Blakemore, son of Mr. and Mrs. George E. Blakemore of 10216 Wallace street, this morning at 9 o'clock in St. Leo's church.

The bride will wear her mother's wedding gown of ivory brocade satin trimmed with Spanish lace. Mr. and Mrs. Blakemore will be at home after Nov. 14 in South Green street.

George F. Porter of 1338 North State street will arrive in Chicago to-morrow after having spent the summer abroad.

Dr. and Mrs. Wilhelm L. Baum will return to town from their farm near Waterville, Mich., on Oct. 1.

Mr. and Mrs. J. Russell Forgan have reopened their apartment at 230 East Delaware place, after having had a house in Lake Forest.

Mr. and Mrs. Frederic W. Upham of 942 Lake Shore drive have arrived at home from a three months' tour of Norway, Sweden and England. They expect to open their country place at Golf, Ill., for week-ends during the autumn.

Mrs. Hubert Burnham, who has been at the Chicago club at Clark street for the late summer, will have a house party this weekend at her Mackinac Island residence.

Mrs. Malak A. Loring of the Virginia hotel, who has spent the summer at the Sleepy Hollow Country Club in New York, will spend next week in New York.

Mr. and Mrs. Wadsworth R. Rothacker and daughter, Virginia, of 2919 Pine Grove avenue have departed for a stay of several weeks in California.

Mr. and Mrs. John A. Chatman of Lake Forest are giving a dinner this evening at the Oriental club for their niece, Miss Mae Morill Dunn.

Miss J. Butler Wright, wife of the third assistant secretary of state, has returned to her husband here.

Miss James R. Mann has returned from Boston Woods in the Woods mountain where she spent most of the summer and is in her apartment at the Highlands.

Miss Adeline Ovard, who has gone from Upperville, Va., to Long Island for a visit, made a brief stay in Washington with Miss Elizabeth Hanna on route. She left for New York yesterday.

Mr. and Mrs. Hans Magnus of 1241 Chafford road, Hubbard Woods, announce the engagement of their daughter Dorothy Emilie to Henry B. Alman, son of Mr. and Mrs. S. H. Alman of 340 Galt avenue.

Mr. and Mrs. James R. Mann of 1241 Chafford road, Hubbard Woods, announce the engagement of their daughter Dorothy Emilie to Henry B. Alman, son of Mr. and Mrs. S. H. Alman of 340 Galt avenue.

ANSWER TO WHAT'S
WRONG HERE

Never ask personal questions. It is a form of torture that should be against the law even in families.

How to Be Happy Though Married By DORIS BLAKE

What do women know about men? Do they know enough about them? Or too much?

You just think you do! You don't know the half of it, dear! Not one-half of it, according to a recent discovery made by Mary Austin, distinguished American writer, who reveals our ignorance, blissful as it is, in an article in a current publication.

Knowing as much as we do know about them, should we add complexity to uttermost complexity by attempting to know more about the last deadly secret?

Miss Austin is inclined to the belief that the tremendous political accomplishment we expected of women when she acquired the vote has "done been all gone and ruined" by a change in the quality of woman's thinking about men.

Verily, yes, a little knowledge is a dangerous thing!

Let us pray that man changeth not the quality of his thinking about us, no matter what he thinks of us! We women do not want to visualize his business world going to smash on account of his new thinks, at least until we get in our full supply of fur coats and lip sticks.

You remember what we used to think in the old days of the suffragette slogan, "Votes for Women." Miss Austin: "It was almost a formula that men were too emotional to be trusted entirely with the business running of society. Probably most women by the time they reach 40 are convinced, emotionally, that men never grow up, and that in consequence they are always playing a kind of boy's game with great gusto, even if a boy's game is stupid, wasteful, fight. We wanted the vote so we could change that."

And then the war came along with a lesson for us women about men, which "larned" us that what we knew about men from the men we knew was all wrong, and that the qualities we thought men ought to grow out of were tied up with all the fine, high

minded things that we cannot possibly do without.

DORIS BLAKE ANSWERS

Boy Friend Is Generous.

Dear Miss Blake: I am 24 years old and am keeping company with a man who is about my senior. We are much in love with each other and have expressed our love.

I know another young man who persists in calling me up, trying to make an appointment, although he knows I love the other boy and have no intentions of some day becoming his wife. He has called so many times to let me know more about the last deadly secret?

Miss Austin is inclined to the belief that the tremendous political accomplishment we expected of women when she acquired the vote has "done been all gone and ruined" by a change in the quality of woman's thinking about men.

Better Chance to Be Given by Chicago to Handicapped Children

By LOUISE JAMES BARGELT.

Chicago school children who are undernourished and anemic, who are subnormal, delinquent, crippled, or epileptic, are going to have more chance this year than ever before to reach that happy medium, the normal, according to Dr. Frank Bruner, director of Chicago special schools.

"Chicago in the past has been the pioneer from which other cities, east and west, have learned a great deal regarding the treatment of the subnormal child. We have been first in the establishment of free public schools for the anemic, the deaf, the crippled, and the subnormal. We have almost persistently to rehabilitate crippled children so that they can be self-sufficient when they leave us, to go up into the world."

"Our aim with the crippled children is the same as with the undernourished and the subnormal. We are providing special feeding. A pint and a half of milk each noon is given them free. Then, too, they are put in special classes, given an hour and a half of rest on couches, and wrapped in blankets as soon as the weather grows cool. There are already eighty classes for these children, and in the course of the year we will care for in this way of more than 4,000 crippled children."

"Our aim with the crippled children is the same as with the undernourished and the subnormal. We are providing special feeding. A pint and a half of milk each noon is given them free. WHEAT SCORES SHARP ADVANCE; CORN OFF AT END

BY CHARLES MICHAELS.

Strength in cash wheat and out-of-state markets was largely responsible for a sharp upturn in the local market, but there was an air of mystery regarding the causes of the increased corn. Prices were moving throughout the day. Final trades were at net gains of 5¢ to 14¢ with September gains. The latter closed at 11.03, with December 2¢ to 3¢ premium and May was 11.12 to 11.17.

Rye again showed more strength than wheat and gained 14¢ to 16¢ despite denial that Russia had prohibited exports. Outside of the city rye is increasing. Corn was bought on commission houses on continued cool weather and gained 4¢ to 6¢ with oats 4¢ higher.

Chicago wheat market is going to a lower basis as compared with other markets, and even Winnipeg made a better showing for the day. The latter was up 14¢ to 15¢, while Minneapolis gained 14¢ to 16¢ and Kansas City 14¢ to 15¢. Durum wheat at Duluth, however, jumped 5¢ to 7¢ and in two days up 4¢ to 14¢, and September at the last was up 1¢ to 14¢ under Chicago against 3¢ to 4¢ under Wednesday.

Corn Reaps at Last.

Commission house buying of corn was on a good basis, but the unseasonable weather for maturing the crop being a factor, but above 4¢ for December offerings increased considerably and a reaction came at the finish, putting the close at 43¢ to 45¢, with May 45¢ to 46¢ after selling up to 46¢, a new high for the season. September closed at 45¢.

Gasoline continues to be dominated by the action of corn. At no time were prices lower than the final of the market day, but outside trades not large enough to carry values up far. Country offerings remain light. Cash premiums firm.

September Lard Steady.

September lard went up over October and was 1¢ higher, and there were sales of 1,000,000 the cash at 11¢ over September with 750,000 the lards at September price. Strength in cash more than offset a fall in hogs and the finish was 7¢ to 10¢ higher, which brought 8¢ to 9¢.

October lard advanced 6¢ to 12¢. Prices follow:

Lard. — Close.

Sept. 7, Sept. 8, Sept. 9.

High. Low. 1923. 1922. 1920.

Sept. 7. 10.00 9.50 9.50 10.20.

Oct. 12. 11.07 11.88 12.07 11.97 10.77.

Jan. 10. 10.25 10.83 10.90 10.83 9.08.

September. 9.20 9.15 9.20 9.07 9.87.

October. 8.25 8.25 8.25 8.12 9.70.

January. 9.80 9.75 9.75 9.75 9.75.

STOCKHOLDERS
O. K. \$62,500,000
COPPER MERGER

Boston, Sept. 7.—Stockholders of the Calumet and Hecla Mining Company and its subsidiaries today approved the plan for a merger of the various companies announced by the directors last month. The subsidiaries are the Ahmeek, Alcons, Centennial, and Oceola.

The companies which have constituted properties in the Michigan copper districts will be consolidated into the Calumet and Hecla Consolidated Copper company, with a capitalization of \$25,500,000. The directors in announcing the plan said it would effect great economy in operation.

The capital stock of the consolidated company will be \$2,500,000 shares, of \$25 par value, of which 2,000,000 shares will be issued to the stockholders of the consolidated companies following the merger, and demand notes of 14¢ to 16¢ over September for No. 2 white, while No. 3 white brought 14¢ to 16¢.

The range of cash grain prices in leading markets follow:

WORLD'S GRAIN MARKET NEWS

With strong cash markets and highest premiums of the season for wheat there was a more optimistic feeling, as a majority of the traders were unable to understand the real reason for the strength and advance. The heaviest buying was by shorts who were closing positions. The market was very strong and the balance created a very strong market. It was observed that the market was nearing its top for the present, if it had not already reached it.

Late reports from Kansas City said buyers were not disposed to take the advance in cash wheat premiums and more wheat was carried over than for a long time, the finish being weaker. Kansas City September closed 4¢ over Chicago, and their December at 14¢ was 11.12 to 11.17.

Rye again showed more strength than wheat and gained 14¢ to 16¢ despite denial that Russia had prohibited exports. Outside of the city rye is increasing.

Corn was bought on commission houses on continued cool weather and gained 4¢ to 6¢ with oats 4¢ higher.

Interest in September corn has been greatly reduced and at times it is difficult to trade in. Good buying was for a time early, while later it was besieged with selling pressure. The market was 14¢ to 15¢.

Wheat is moving out of Chicago at a good rate, shipments the last twenty-four hours were 1,000,000 bushels, arriving at 561,000 bushels. Total 900,000 bushels or more under charter to go out part of which was loaded yesterday and the balance is to load the first part of next week. Sales to Montreal were 800,000 bushels.

Interest in September corn has been greatly reduced and at times it is difficult to trade in. Good buying was for a time early, while later it was besieged with selling pressure. The market was 14¢ to 15¢.
